### **GREENE COUNTY'S WATERPARK RECEIVES INTERNATIONAL ATTENTION Picturesque Photo Makes Magazine Cover**

**WAYNESBURG, PA** – Foundation Coal Aquatic Center is featured in the July/August issue of the World Waterpark Magazine. The magazine is published 10 times a year profiling waterparks from around the world from municipally to corporately/privately own and provides valuable information on waterpark business topics, industry trends and many other subjects. Some of the topics include management issues, product and supply purchases, and safety procedures to assist in the day to day operations to obtain efficiency and profitability.

The article gives unique detail to the vast undertaking from a political subdivision and their funding decisions on building a new waterpark. The story begins with describing our location of the facility, the contemplation of renovating an older pool or building a new one, funding, the bid proposals and design, construction time, to the beautiful outcome outlining all its amenities.

*“As a county commissioner, we discuss and make decisions on many issues that face Greene County. Some assessments and choices may not have favorable outcomes but we review many facts and try to do what is best for our community. Having the opportunity to build a new facility that features twenty first century equipment and then receiving the gracious feedback from residents and tourists gives personal confirmation needed to keep focusing on achieving our goals,”* said Commissioner Pam Snyder, *“They say a picture is worth a thousand words and this snap shot displays a beautiful and breath taking scene of our waterpark.”*

For more information on the World Waterpark Organization, visit their website at [www.waterparks.org](http://www.waterparks.org). Information on Foundation Coal Aquatic Center can be found at the county's website at [www.co.greene.pa.us](http://www.co.greene.pa.us) or contact us at 724-852-2088.
