Covered Bridges in Greene County:

Covered bridges symbolize small-town America. Something from the nineteenth century, a little archaic and strange to the eyes of our youngsters today, but picturesque and sentimental. "Kissing Bridges" recall a time when life was simpler and closer to the land — if only in our dreams.

Covered bridges complement autumn leaves and autumn emotions. Photogenic and often remote from the Interstate Highways and cities of the twentieth century, covered bridges lure the explorer to find the little streams and dirt roads that the twentieth century has almost passed by.

Our county joins with Washington County in an annual covered bridge festival, held annually on the third weekend in September. The Covered Bridge Festival is widely regarded as a signature event in the area — and a great way to enjoy the beginning of the Autumn season.
