UPMC Health Plan, First Federal Savings and Loan, and Community Bank Team Up to Support Housing Rehabilitation Efforts in Crucible

FOR IMMEDIATE RELEASE

WAYNESBURG - The Redevelopment Authority of the County of Greene (RACG) received a \$250,000 Tax Credit through the Pennsylvania Department of Community and Economic Development to further assist in stabilizing homes in Crucible.

Three homes will be rehabilitated, and Blueprints will identify first-time homebuyers who qualify to purchase the homes through their HUD-Certified home purchase services available through Blueprints' Home Ownership Center.

Dave Calvario, RACG Executive Director, stated, "This is a step in stabilizing another coal-patch community in Greene County. Greene County Habitat for Humanity has recently rehabbed homes in Crucible. RACG has rehabbed three homes and demolished four houses in the previous three years. We want to continue to create partnerships to improve our County in order to ensure the success of first-time homeowners. UPMC Health Plan, First Federal, and Community Bank are playing a vital role in our efforts to repurpose properties in Crucible. We could not have taken this project on without their help."

Threshold Housing out of Uniontown will be overseeing the rehabilitation of the three homes.

RACG was reestablished in 2009 with its mission "to assist the Greene County Community with economic development, community revitalization, affordable housing initiatives, and home ownership opportunities."
